EndNote® End User License Agreement

THE TERMS AND CONDITIONS OF THIS AGREEMENT SHALL NOT APPLY IF YOU HAVE OBTAINED ACCESS TO THIS PRODUCT PURSUANT TO AN INSTITUTIONAL SITE LICENSE. UNDER SUCH CIRCUMSTANCES, YOUR USE OF THIS PRODUCT SHALL BE GOVERNED SOLELY BY THE TERMS AND CONDITIONS OF SUCH LICENSE. If you would like to understand more about all of the rights that you or your employer have to use the Product, you should refer to the institutional site license agreement between you or your employer and Clarivate or authorized resellers.

BACKGROUND. Camelot UK Bidco Limited ("Clarivate Analytics") has developed a proprietary software application known as EndNote® (the "Software"). By using the Software and/or its accompanying manuals (the "Documentation" and together with the Software, the "Product"), you (the "End User") agree with Clarivate Analytics to be bound by the terms and conditions set forth herein. Clarivate Analytics is willing to permit you to use the Product only upon the condition that you accept and comply with all of the terms of this agreement ("Agreement").

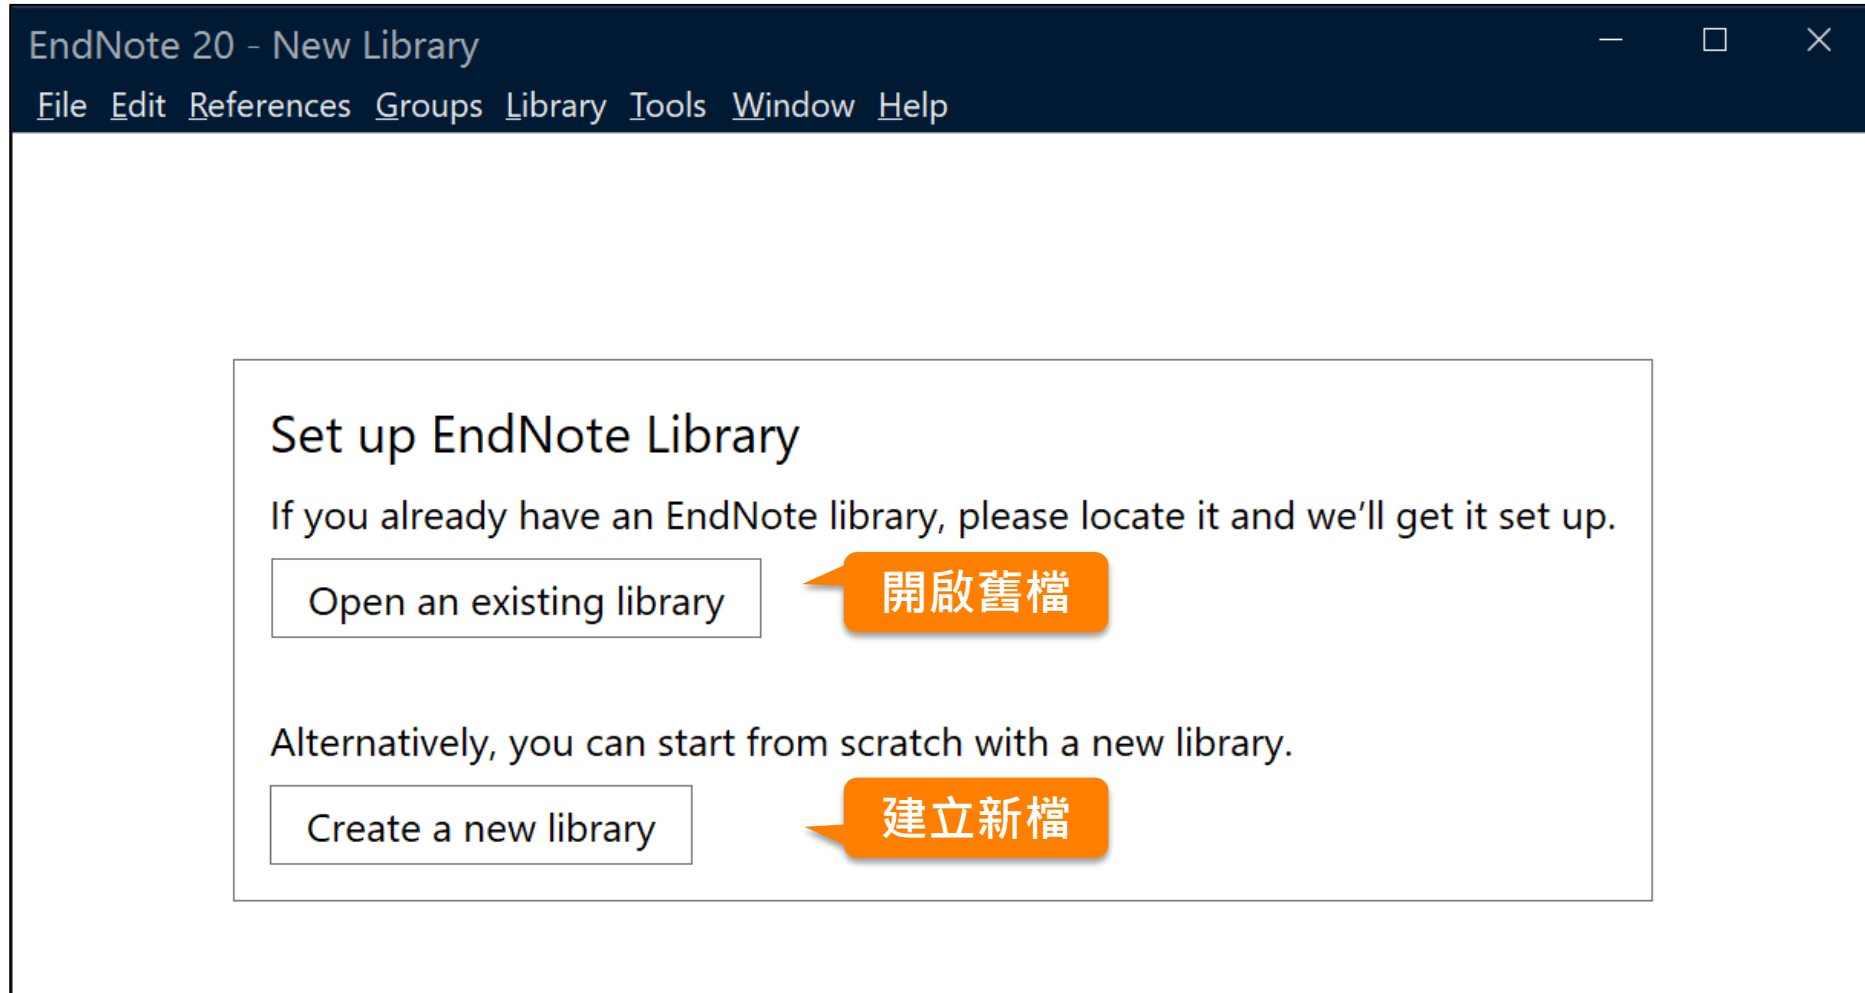

THEREFORE, for good and valuable consideration, including the rights and license granted in this Agreement, and intending to be legally bound, Clarivate Analytics and End User agree as follows:

☒ I accept the license agreement

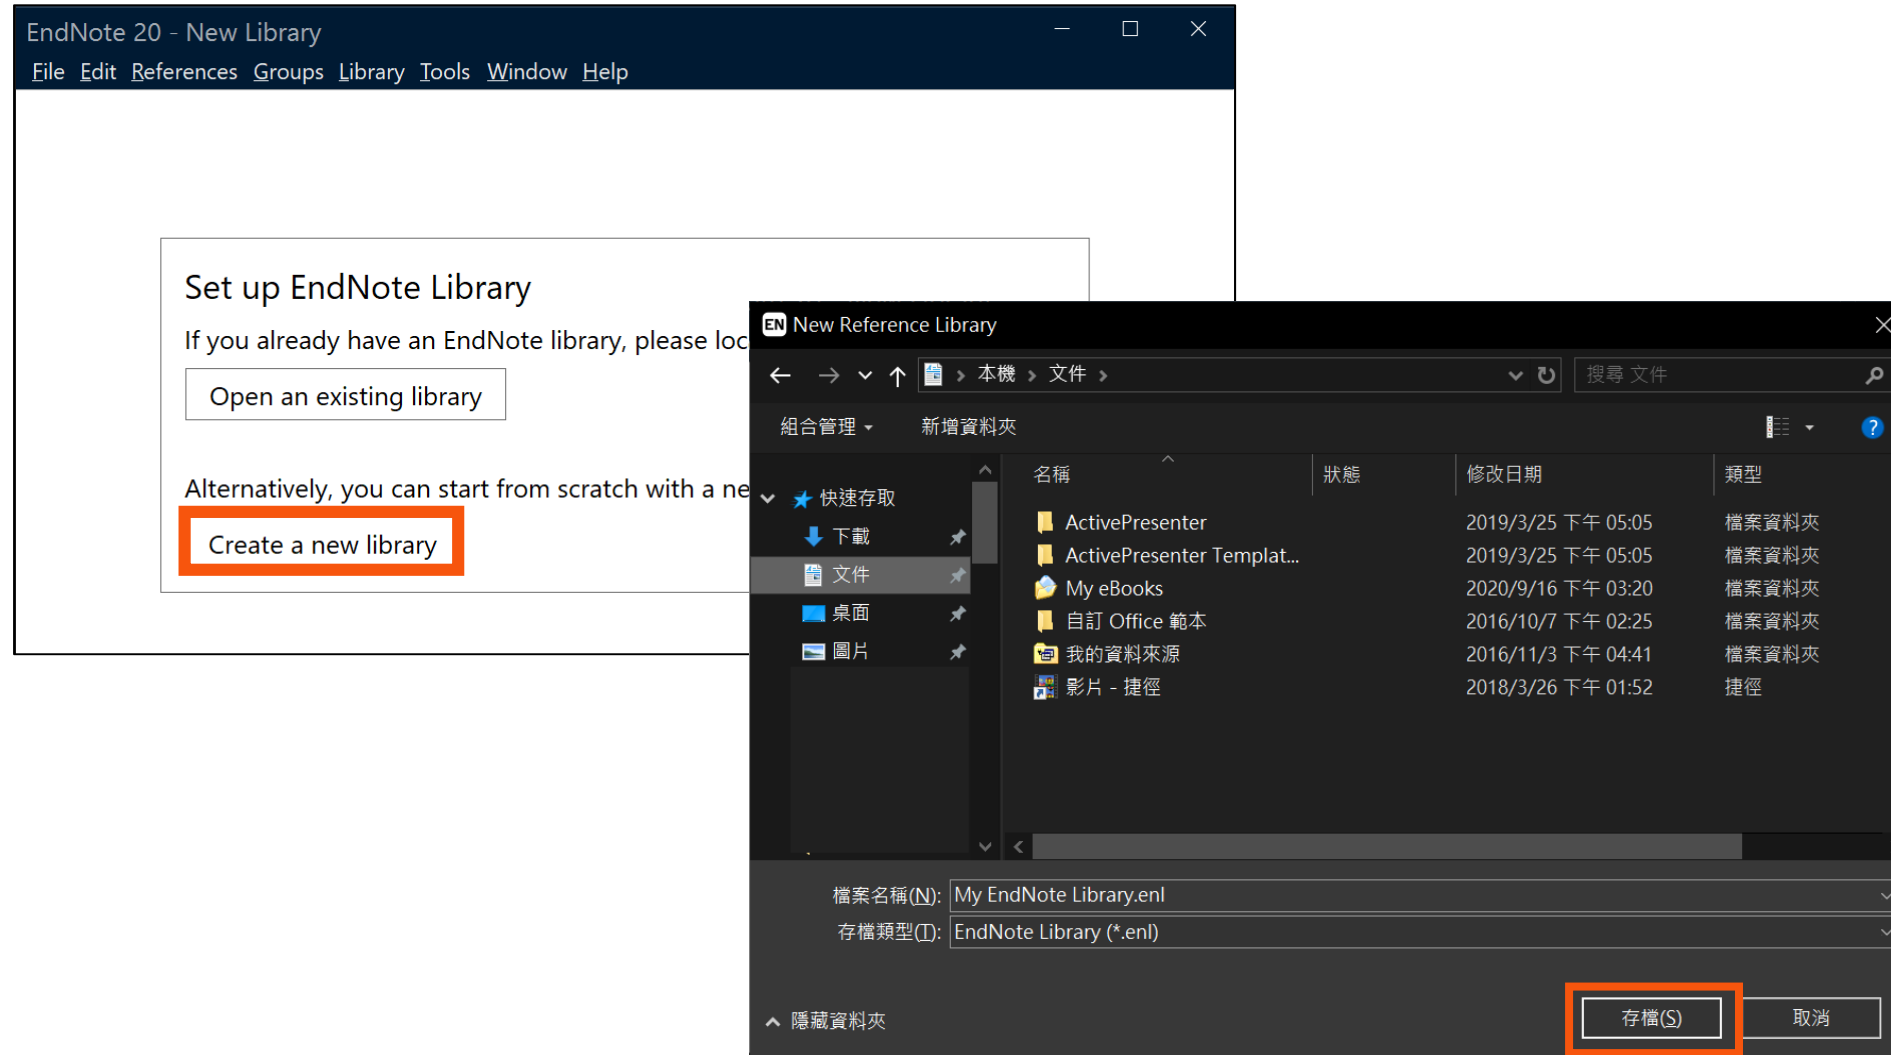

☐ I do not accept the license agreement

Windows 介面設計

The screenshot displays the SRIS Library Manager application window. The interface is divided into several functional areas:

- Top Menu Bar:** Includes 'File', 'Edit', 'References', 'Groups', 'Library', 'Tools', 'Window', and 'Help'.
- Left Sidebar:**
 - Sync Status:** A section for managing synchronization.
 - Reference Lists:** Includes 'All References' (10), 'Recently Added' (10), 'Unfiled' (10), and 'Trash' (0).
 - MY GROUPS:** A section for managing groups, with a sub-item 'My Groups'.
 - Search Bar:** A text input field labeled 'Search for group'.
- Main Panel:**
 - Search Bar:** A large search input field with a magnifying glass icon.
 - Library 中搜尋:** A button to initiate a search in the library.
 - Advanced search:** A link to access advanced search options.
 - 快捷鍵:** A section for keyboard shortcuts, featuring icons for various actions like adding, deleting, and searching.
 - Table:** A table listing references with columns: Author, Year, Reference Type, Title, and Journal. The table contains several entries, including 'Lazarus, J. V., Ratzan, S. C., Palayew, A., Gostin, L. O., Larson, H. J., Rabin, K., Kimball, S., & El-Mohandes, A. (2021). A global survey of potential acceptance of a COVID-19 vaccine. *Nat Med* 2021; vol. 27 issue 2; Pages 225-228.'
- Right Panel:**
 - Summary:** A section for viewing the summary of the selected reference.
 - Attach file:** A button to attach a file to the reference.
 - Format Preview:** A section for previewing the reference in different formats, including APA 7th, Insert, and Copy.

Annotations in purple boxes highlight specific features:

- 總功能:** Points to the top menu bar.
- 分頁功能:** Points to the 'All References' tab.
- Library 中搜尋:** Points to the search bar in the main panel.
- 快捷鍵:** Points to the keyboard shortcuts section.
- 書目資料:** Points to the reference table.
- 詳細書目資料、編輯、PDF預覽:** Points to the right panel, specifically the 'Summary' and 'Attach file' sections.
- 書目格式預覽:** Points to the 'Format Preview' section.
- 同步參考文獻分類群組找全文狀態連線資料庫檢索搜尋 Group:** Points to the left sidebar, specifically the 'MY GROUPS' and 'Search for group' section.

A Case Series of Children With 2019 Novel Coronavirus Infection: Clinical and Epidemiological Features

J. H. Cai, J. Xu, D. J. Lin, Z. Yang, L. Xu, Z. H. Qu, et al.

Clinical Infectious Diseases 2020 Vol. 71 Issue 6 Pages 1547-1551

Accession Number: WOS:000582709700030 DOI: 10.1093/cid/ciaa198

We first described the 2019 novel coronavirus infection in 10 children occurring in areas other than Wuhan. The coronavirus diseases in children are usually mild and epidemiological exposure is a key clue to recognize pediatric case. Prolonged virus shedding is observed in respiratory tract and feces at the convalescent stage.

Output Formats with Corresponding Import Options

To import references, you must first save references from an information provider as a plain text (.txt) file in a tagged format. If references are sent to you in the body of an email, save the email to a plain text file for importing.

1. In EndNote, select the File > Import > File option to select the tagged text file that you saved from the information provider.
2. Select the appropriate import filter from the Import Filter menu. The Other Filters option opens a dialog that displays all filters in the EndNote product. All filters direct tagged bits of bibliographic information to corresponding EndNote fields.
3. Start the import process by clicking the Import button.

The list below provides a direct export of references to EndNote. It is only a small list of information providers. Note the following before you begin.

- There are hundreds of import filters available in the EndNote Filters folder.
- Select Edit > Import Filters> Open Filter Manager to look into the EndNote Import Filters table for information on how to open, view, and edit filters. Many of the filters include a Comments and Limitations section with tips on how to download references for importing into EndNote.
- Go to our Web site at <http://www.endnote.com/support/enfilters.asp> for updated information and import filters, including detailed information on how to save and download data directly to EndNote.

See [Importing Reference Data into EndNote](#) for more detailed information about importing.

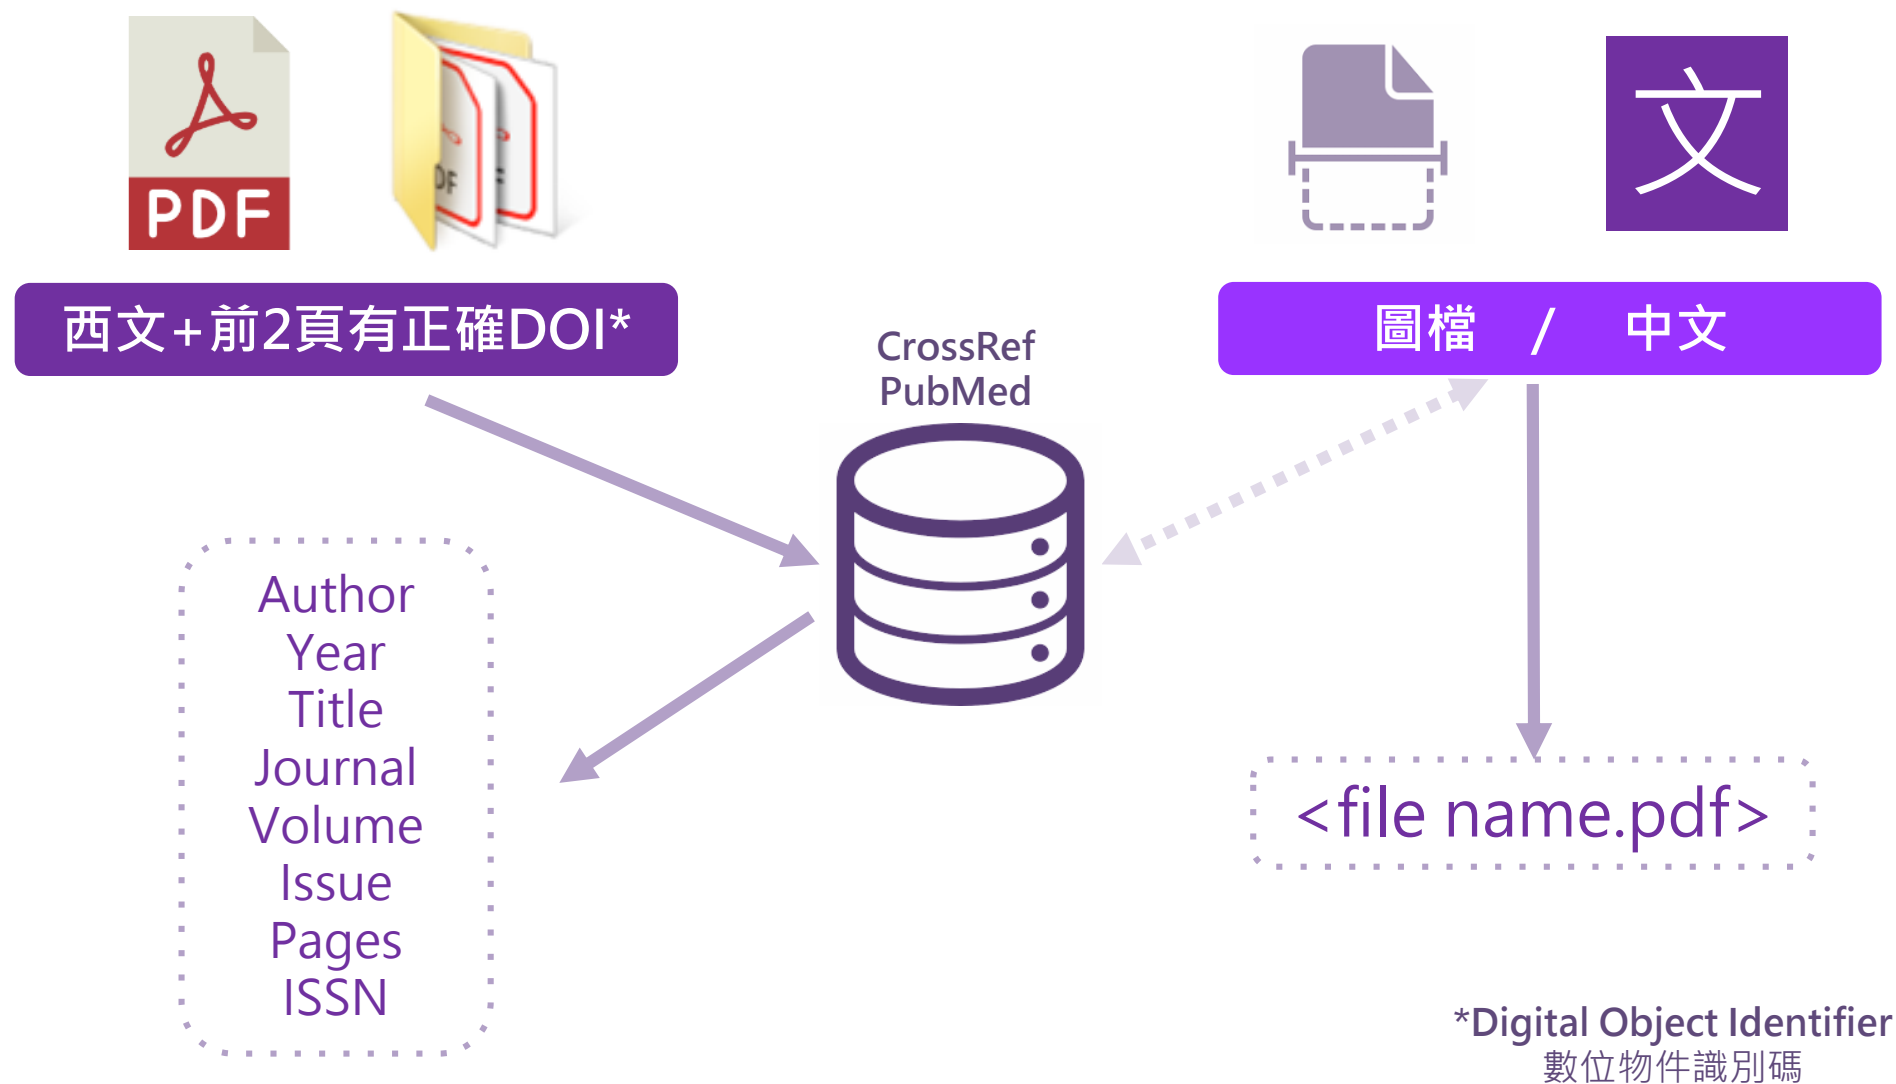

See [General Importing Instructions](#) for more step-by-step instructions.

Information Provider	Recommended Download Format	Import Filter
AARP AgeLine	http://research.aarp.org/ageline/home.html There is no method for downloading data from this database. Instead, save the results screen as a plain text file with your web browser's Save command. The resulting text file contains tags which are preceded by 18 spaces.	Ageline (AARP) filter
ACM Digital Library (Association for Computing Machinery)	Users with subscription access to this web site can save multiple records to a BINDER. Once saved, you can export the records in an EndNote format. Non-subscribers can download one record at a time: 1. Create a search. 2. Click on an article. 3. Scroll half-way down the page and select DISPLAY EndNote.	EndNote Import

Supplementary table 1 | Equations describing the 'Likely water' cluster hull and cluster overlaps in the multidimensional feature-space.

These equations describe the 'Likely water' cluster in the multidimensional feature-space. By definition, part of this cluster contain pixels that are not water, and request additional processing steps to be properly assigned. The method section provides details about the usages of this equations within the expert system classifier.

Name	Description	Equations describing the "Likely water" cluster hull and cluster overlaps in the multidimensional feature-space

ABSTRACT

This paper provides a mathematical model estimation of r , the fraction of asymptomatic carriers that may lead to a catastrophic reliance on the health system to isolate all confirmed infectious cases. The model assumes that asymptomatic and ordinary carriers, such as the process, is calibrated to standard early data from Italy that certain fundamental parameters, such as the basic reproduction number, are general analytical framework is presented for policy intervention. It is found that the model predicts that but not all, potential policy intervention representing Italy in March 2020, a hypothesis that aims to reduce the basic reproduction number assuming $r = 0$, only achieves 3.8 if it is implemented. © 2021 The Authors. Objective. To determine the presence of mesenchymal progenitor cells (MPCs) in human articular cartilage.

Methods. Primary cell cultures established from normal and osteoarthritic (OA) human knee articular cartilage were analyzed for the expression of CD166, cell surface markers whose coexpression with CD133 identifies mesenchymal stem cells (MSCs) in bone marrow stroma. The potential of cartilage cells to differentiate to adipogenic, osteogenic, and chondrogenic

capable of chondrocytic differentiation and formed cartilage tissue in micromass pellet cultures.

findings indicate that in adult human articular cartilage, the frequency is increased as implicating the capacity of articular cartilage cells to differentiate into progenitor cells that these progenitor cells might be involved in the pathogenesis of arthritis.

mRNA-based therapeutics —
developing a new class of drugs

Ugur Sahin^{1,2}, Katalin Karikó^{2,3} and Özlem Türeci¹

Abstract | In vitro transcribed (IVT) mRNA has recently come into focus as a potential new drug class to deliver genetic information. Such synthetic mRNA can be engineered to transiently express proteins by structurally resembling natural mRNA. Advances in addressing the inherent challenges of this drug class, particularly related to controlling the translational efficacy and immunogenicity of the IVTmRNA, provide the basis for a broad range of potential applications. mRNA-based cancer immunotherapies and infectious disease vaccines have entered clinical development. Meanwhile, emerging novel approaches include in vivo delivery of IVT mRNA to replace or supplement proteins, IVT mRNA-based generation of pluripotent stem cells and genome engineering using IVT mRNA-encoded designer nucleases. This Review provides a comprehensive overview of the current state of mRNA-based drug technologies and their applications, and discusses the key challenges and opportunities in developing these into a new class of drugs.

The concept of nucleic acid-encoded drugs was conceived over two decades ago when Wolff *et al.*¹ demonstrated that direct injection of in vitro transcribed access the nucleus to be transcribed into RNA, and their functionality depends on nuclear envelope breakdown during cell division. In addition, IVT mRNA based ther

The relationship between sleep quality and fibromyalgia symptoms

A. Andrade, G. T. Vilarino, S. M. Sieczkowska, D. R. Coimbra, G. G. Bevilacqua and R. D. K. Steffens

Journal of Health Psychology 2020 Vol. 25 Issue 9 Pages 1176-1186

Accession Number: WOS:000553450000003

DOI: 10.1177/1359105317751615

This study investigated the relationship between sleep quality and fibromyalgia symptoms in 326 patients. The Pittsburgh Sleep Quality Index was used to assess the presence of sleep disorders. Multivariate analysis of variance was performed to determine the influence of fibromyalgia symptoms on sleep quality. The prevalence of sleep disorders was 92.9 percent. Patients reported generalized pain (88.3%), memory failure (78.5%), moodiness (59%), excessive anxiety (77.5%), and concentration difficulties (69.1%). Patients with more symptoms reported poor sleep quality (p < .05;d = .74), and the total Pittsburgh Sleep Quality Index score correlated with the number of symptoms (p < .01). Sleep quality has an important association with fibromyalgia symptoms.

Abstract Background: Although sleep hygiene education represents a promising approach for patients with poor sleep quality, little research has been devoted in understanding the sleep hygiene behavior and knowledge of working women. Purpose: The purpose of this study was to investigate the efficacy of a short-term sleep hygiene education program on working women with poor sleep quality.

sleep quality

Pittsburgh Sleep Quality Index (PSQI)

Nursing

Background: Although sleep hygiene education represents a promising approach for patients with poor sleep quality, little research has been devoted in understanding the sleep hygiene behavior and knowledge of working women. Purpose: The purpose of this study was to investigate the efficacy of a short-term sleep hygiene education program on working women with poor sleep quality. Methods: This pilot study was a prospective and an exploratory intervention study. The intervention was

DOI: 10.1177/1359105317751615

This study investigated the relationship between sleep quality and fibromyalgia symptoms in 326 patients. The Pittsburgh Sleep Quality Index was used to assess the presence of sleep disorders. Multivariate analysis of variance was performed to determine the influence of fibromyalgia symptoms on sleep quality. The prevalence of sleep disorders was 92.9 percent. Patients reported generalized pain (88.3%), memory failure (78.5%), moodiness (59%), excessive anxiety (77.5%), and concentration difficulties (69.1%). Patients with more symptoms reported poor sleep quality (p < .05;d = .74), and the total Pittsburgh Sleep Quality Index score correlated with the number of symptoms (p < .01). Sleep quality has an important association with fibromyalgia symptoms.

s in the chest, restlessness, manic or depressive psychosis, nausea or vomiting, hiccups, gastric pain, and distension in the upper abdomen (Chen *et al.*, 2001). Since the parasympathetic modulation of both heart and gut is mediated by the vagus nerve, and since vagal stimulation of the gut can result in increased peristalsis (Chen *et al.*, 2001), the vagal stimulation of the heart can result in decreased heart rate (Chen *et al.*, 2001). It is speculated that to some extent the pericardium meridian reflects the autonomic nervous modulation of the subject.

Acupressure at the Neiguan (P6) point, the most frequently used point on the pericardium meridian, has been shown to lessen nausea and vomiting (Dunne *et al.*, 1989a and b; Ho *et al.*, 1989; De Aloysio and Penacchioni, 1992; Eick *et al.*, 1997; Harmon *et al.*, 2000). Because nausea and vomiting are associated with autonomic nervous activity (Morrow *et al.*, 1992; Morrow *et al.*, 1992), the autonomic nervous activity might be changed when acupressure is performed.

Variability analysis is a useful non-invasive technique for the assessment of autonomic modulation of heart rate. Some diseases are associated with autonomic nervous activity, and the restoration of vagal modulation is a key factor in the treatment of these diseases.

大數據應用於醫學研究之法律議題

陳聰富, 蔡甫昌, T.-f. Chen and D. F.-c. Tsai

臺灣醫學 2017 Vol. 21卷 Issue 1期 Pages 頁34-42

醫療大數據應用於醫學研究，對於促進人類健康福祉具有其重要性，因此關於醫療大數據之利用，具有公共利益之性質，但因為個人醫療健康資料所具有的特殊敏感性，也需在法制上對所涉及的個人資料隱私權加以保護，這是重要的法律討論議題。本文主要探討目前我國法制上對醫療大數據應用於醫學研究的議題。

EndNote Library 分享功能

分享對象至信箱收邀請信

noreply@endnote.com 透過 amazonses.com

寄給 ▾

下午12:00 (0 分鐘前)

██████████ would like to share an EndNote library with you.

To accept this invitation and access Jamie 's library, you must have EndNote X7.2 or later installed, and we strongly recommend using EndNote 20 for the best experience.

Once you've accepted this invitation, you will be able to access all of the references, PDFs, file attachments, and notes in this shared library from your EndNote desktop application.

Accept: <https://account.endnote.com/enwservices/invitation/#/f252b9dd-2e25-4640-8443-10dfc69ff700>

Don't have EndNote for Mac? Get the free trial version now to access shared libraries and much more. http://endnote.com/buy?utm_source=en-desktop&utm_medium=email&utm_campaign=ls-email-ro&utm_content=buy-en

透過連結進入

Learn more about sharing your research with EndNote. http://endnote.com/?utm_source=en-desktop&utm_medium=edm&utm_campaign=ls-email-ro&utm_content=learn-more

If you do not wish to accept this invitation, please notify ██████████ directly.

Jamie has invited you to join a shared
EndNote library.

[Learn More](#)

To accept this invitation, sign in using the same credentials you use when accessing EndNote online or syncing your desktop library, or create a new account. To access this shared library you must have EndNote X7.2 or later installed.

Sign In with your EndNote account

完成邀請接受，即可使用

Invitation accepted. For access to Jamie's shared EndNote library, follow these instructions.

Share Library 使用方式

Update EndNote to version X7.2 or later

Now, go to the desktop to make sure you're on the latest version. To check:

Windows

1. Click on **Help > About**
2. Click on **Program Updates** or download the [installer](#).

You can now access the shared library from your desktop.
Just go to File > Open Shared Library.

OS X

1. Click on the **EndNote** menu dropdown.
2. Click on **Check for Updates** or download the [installer](#).

You can now access the shared library from your desktop.
Just go to File > Open Shared Library.

 Help

利用Word(含參數)中的 Manuscript Matcher 可將已插入參考文獻自動帶進Endnote選刊工具。

Fears of second coronavirus outbreak hit global shares

Chapter 1

Share prices had gained in recent weeks amid hopes that the economy would rebound as authorities loosened restrictions put in place to try to slow the spread of the virus.(Bagheri et al., 2021; Silva et al., 2020)

Last week's surprise report showing US employers had restarted hiring in May helped to push the tech-heavy Nasdaq index to new highs(Haibo et al., 2020; Sharma et al., 2020).

But the recovery remains tentative. On Thursday, the US Labor Department reported that another 1.5 million people had filed new unemployment claims last week. More than 30 million continue to collect the benefits, it said.

Bagheri, A., Fellows, C. M., & Boyer, C. (2021). Reversible Deactivation Radical Polymerization: From Polymer Network Synthesis to 3D Printing. *Adv Sci (Weinh)*, 8(5), 2003701.
